

KDP Ebook Preflight Checklist

What to check before you upload a Kindle eBook to KDP — based on KDP's help pages

BookKraft AI — bookkraftai.com/checklist/kdp-pre-launch-checklist

MANUSCRIPT

- ☐ Your file is in a format KDP accepts for eBooks: Word (DOC/DOCX), KPF or EPUB, or HTML, RTF or TXT (PDF is supported only for some languages)
- ☐ Tracked changes accepted and comments removed, so they can't end up in the book
- ☐ Any password protection removed from the file before you upload
- ☐ Double spaces, empty paragraphs and a mix of straight and curly quotes cleaned up
- ☐ Chapter titles use the same heading style throughout, so a table of contents can be built from them

Based on: KDP help G200634390

EPUB FILE

- ☐ File is under 650 MB — KDP says larger files will not convert
- ☐ EPUB structure checked: mimetype, container, OPF package, spine and manifest
- ☐ Table of contents present and working (a nav document in EPUB 3)
- ☐ Every image and font the book uses is included in the file
- ☐ File checked in Kindle Previewer, which KDP recommends before you upload an EPUB

Free tool: bookkraftai.com/tools/epub-validator

Based on: KDP help G200735140, KDP help G200634390, W3C: EPUBCheck

COVER

- ☐ Cover is a JPEG or TIFF file under 50 MB, in RGB color
- ☐ Cover is at least 1,000 × 625 pixels (height × width); KDP's ideal size is 2,560 × 1,600, a 1.6:1 ratio
- ☐ Title, subtitle, author name and series on the cover match what you enter in KDP
- ☐ Print edition: the paperback cover is a separate PDF with front, spine and back

METADATA

- ☐ Title, subtitle, author and series in KDP match your cover
- ☐ Book description is 4,000 characters or fewer — KDP counts HTML tags too
- ☐ Language set to the language the book is written in
- ☐ ISBN decided: optional for Kindle eBooks; each print format needs its own
- ☐ AI-generated text, images or translations disclosed when you publish; AI-assisted editing doesn't need to be disclosed

KEYWORDS AND CATEGORIES

- ☐ Up to 7 keywords or short phrases, using specific words in a logical order
- ☐ No terms KDP asks you to avoid: words already in your title, contributor names or categories, quality claims, time-sensitive words, other authors' names, brands you don't own, Amazon program names
- ☐ Each keyword fits the character limit shown in KDP's keyword field
- ☐ Up to 3 categories chosen from KDP's own category list (not BISAC), matching your book as closely as possible

Guides: bookkraftai.com/kdp-keyword-guide, bookkraftai.com/amazon-keyword-research, bookkraftai.com/kdp-category-keywords

PRICING AND RIGHTS

- ☐ For the 70% royalty on Amazon.com, your list price is between \$2.99 and \$12.99
- ☐ 70% royalties include a delivery cost based on file size (\$0.15 per MB on Amazon.com)
- ☐ KDP Select decided: it is a 90-day program, and enrolled eBooks must be exclusive to KDP in digital form, including your own website
- ☐ Territory rights set to match the rights you hold

Guide: bookkraftai.com/kdp-ebook-pricing

Based on: KDP help G200634560, KDP help G200634500, KDP help G200798990, KDP Select exclusivity

FINAL UPLOAD

- ☐ Book previewed in Kindle Previewer and checked page by page
- ☐ Table of contents opens from the Kindle navigation menu in the preview
- ☐ Timing planned: KDP says a new book can take up to 3 business days to go live
- ☐ After publishing, changes to details like keywords and description can take up to 72 hours to show
